Experience

D.U.E.T. Research Lab *Research Assistant*

Sept 2020 – Present | Remote

Design for User Experience with Technology Research Lab studies emerging technology and design variables affecting the way people feel, think, and act in designed environments. Conduct research about the effect of different virtual environments on creativity.

Joint Quantum Institute *UI Designer*

May 2019 – Present | Remote

Improve usability of *The Quantum Atlas*, a resource for people to learn about quantum physics, through redesigning website based on user analytics data. Identified interface and usability factors that provide user reliability through surveys and feedback. Communicate scientific information to an audience with a non-science background.

AguaClara Cornell *Public Relations Lead*

Sept 2019 – March 2020 | Ithaca, NY

Collaborate with engineering, product design, and business teams to identify and develop methods for building and maintaining water treatment plants in Honduras that meet client needs. Increase AguaClara's presence within Cornell and the global community by facilitating development decisions.

Medium Design Collective *Editorial*

Sept 2019 – March 2020 | Ithaca, NY

Write pieces and design graphic illustrations for Medium's print magazine, aimed to bring together designers to create innovative solutions to design problems. Collected qualitative data through conducting surveys and interviews.

B'nai B'rith International *Author and Illustrator*

June 2017 | Washington D.C.

Winner of the Diverse Minds Writing Challenge in the D.C. Metro Area. Wrote and illustrated *What Makes Me Beautiful*, a children's book promoting diversity. Not for profit—published books donated to local libraries in D.C.
